

BQ Contractors Limited

Mechanical, Civil & Building Contractors

Good Quality, Timely Delivery

Greetings

to Clients & Suppliers

Two Decades of Unsurpassed Growth *Integrating Local Resources and Best Practices to Offer Superior Quality Construction Works*

BQ Contractors Limited celebrates 20 years of unsurpassed growth with much enthusiasm. The unwavering support from our clients, industry players, stakeholders and the community we work in has particularly driven our dream of championing industry change of quality provision and timely delivery of construction projects.

We have expanded our activities in the glowing oil and gas sectors as an emerging opportunity for growth. We look beyond the key pillars of trust and integrity to inspire the construction of a sustainable and cost effective energy infrastructure while we create maximum value for our client investment.

Early Days

From humble beginnings as a family business initiative in 1996 with very limited resources, BQ Contractors Limited has evolved to become a key player in the construction sector in mechanical, civil and building.

Corporate restructuring in 2007 saw to the establishment of a strong foundation for good corporate governance and strict financial control. The enterprising relations with industry players were a huge motivation.

Doing the Right Thing in a Modern Way

Our philosophy towards professionalism, experience and commitment for success meant that we focus on an enterprising investment on machinery and the use of the latest technology.

This went hand in hand with training of our own staff on the best practices in view not to compete but to do the right thing in a modern way.

To complement our efforts, foreign expertise was engaged to transfer knowledge to Tanzanians. Today we take pride in our ability to combine expertise with diversity as we creatively and innovatively endeavor to complement our client's expectations and secure value for money.

Corporate restructuring in 2007 saw to the establishment of a strong foundation for good corporate governance and strict financial control. The enterprising relations with industry players were a huge motivation.

Our Dream

We are inspired by the founder's desire to build an efficient contracting firm that would consistently exceed client expectations in the delivery of quality construction works and services at international standards.

About

BQ Contractors

*STEPHEN PETER - BA Public Administration - UDOM
Human Resources, Administration & Finance Manager*

BQ Contractors Limited is a Tanzanian firm established in 1996 to champion industry change in the provision of quality works in mechanical, civil and building construction.

Today, we have moved the extra mile in the provision of superior client experience in the glowing energy sector with particular focus in Oil and Gas. The firm is registered with CRB as Mechanical, Civil and Building, and is a member of the Contractors Association of Tanzania (CATA).

Our Purpose

Throughout our history we have strived to improve peoples' lives, especially our working community both permanent as well as on contract. By doing so we improve their know how and work commitment. In such a way, we are assured of growth. This is our role and purpose.

Our Vision

To be an efficient contracting firm delivering quality works and services at international standards.

Our Mission

We exist to champion quality partnerships with other industry players and professional bodies while investing on modern technology and improving national capacities to achieve superior client satisfaction and value for money.

Our Key Strengths

20 years on ground experience

BQ Contractors Limited takes pride in its 20 years practical and field experience in construction. We have evolved with flexibility and timeliness, effectively delivering quality works in an efficient manner. This particularly promises our clients a friendly collaboration and partnership while handling their specific needs and meeting project requirements within approved budget parameters.

“ We have invested on cost effective machinery with a huge reward in a strong record of growth. ”

Civil Works on Rehabilitation of 36 million litres Fuel Storage Tank for Tanzania International Petroleum Reserve (TIPER)

Quality Investment in Machinery

Value investment in machinery has been the backbone of our successful existence. We take our client's specific quality measurements at heart. We have invested in cost effective machinery with a huge reward in a strong record of growth. Our clients will therefore expect quality works at affordable costs that promise long-term equity returns.

“ Our clients will therefore expect quality works at affordable costs that promise long-term equity returns. ”

Health, Safety & Environment Policy :

Effective Health & Safety Practices for Better Performance

As a responsible employer, BQ Contractors Limited is committed to safeguarding the occupational health, safety and welfare of all its employees by providing, so far as reasonably practicable, a safe and healthy environment

We believe that effective healthy and safety practices contribute directly to better performance. We not only comply with health and safety legislation, but also adopt recognized good practices and industry leadership to attain the highest standards.

To promote a healthy culture, the company has:

- Made good health and safety practices an integral part of its existence.
- Complied with all relevant legislation and approved codes of practice as the Safety Policy as a minimum and to monitor new developments to continually improve the specified performance standards.
- Provided a safe and risk free work place for its employees
- Adopted a structured approach of policy, processes, training and awareness at all levels.
- Committed to carrying out operations with due regard to the health and safety of the public and other non-employees.

We have provided prescribed information regarding those operations which may affect health and safety.

- Ensured employees take reasonable care for their own and others' safety and that they are competent and appropriately trained.
- Created provisions for regular health checks and occupational health and support for all employees.
- Committed to consult with employees and where appropriate their representatives to effectively communicate on health and safety matters.
- Measured our health and safety performance against the industries we operate within to determine areas for improvement we can adopt.
- Sustained and develop this policy by the implementation of an accredited health and safety management system
- Committed to review the Health and Safety Policy on an annual basis and implement appropriate improvements.
- Committed to bring changes to the Health and Safety Policy and Safety Management System to the attention of all employees.

Health and Safety adherence with suitable Person Protective Gears

BQ Contractors respects the environment and is committed to transforming the lives of the communities we work with. We use sustainable approaches that deliver lifetime results in specific and tangible projects.

Employee Training and Career Development

BQ Contractors Limited advocates for employee success and career advancement as a motivation to increased productivity and performance levels. We complement existing processes that help employees take initiatives and tap into their natural talents. We bring in foreign expertise to impart knowledge and empower our employees for our future sustainability as well as for individual development.

Dear Sir/Madam,

This is to inform you that Tanga Cement Co. Ltd highly appreciates the quality of your work and the high safety standards that you demonstrated at our plant during the recent Aug/Sept 2012 planned kiln maintenance shutdown that had a number of parallel activities.

This has established an important base for a continued successful business relationship between yourself/company and us and we are proud to be associated with you.
